

[illegible]

IMPORTANT:
Disinfectants can damage the polished surfaces of scissors & dull the blades.

Furthermore, the plastic-teflon parts of the screws are affected, which can result in the scissors no longer opening & closing properly. This can also impact the smoothness of operation & cutting performance.

CLASSIC

OFFSET

CRANE

ERGO

ROTATING

Symmetrical position of the two finger rings delivers a traditional cutting sensation.

The offset position of the two scissor rings relieves tension in the muscles of the arm, neck & shoulders. Cutting becomes comfortable & effortless.

Short, downward-angled thumb handle for ergonomic working posture.

The angled thumb-ring reduces friction & pressure marks & gives secure control of the scissors.

The rotating insert-ring moves with the thumb. Friction & pressure marks are prevented without affecting the sense for the scissors.

COATED

CURVED

PRISM

MICRO

PRISM PLUS

High-quality coating prevents direct contact between the skin & the steel for protection in case of nickel allergy.

Guarantees the ideal cutting angle in any position, thereby delivering a precise, straight cut over the entire length of the blade.

V-teeth serration of the thinning teeth provides a smooth, soft feeling during closing. Hair is cut securely & precisely without slippage.

Classic blades with a flat cutting edge angle for excellent sharpness. Micro-serration on one blade avoids slippage of the hair.

Slightly curved thinning teeth fall flush against the lower cutting edge, which is also serrated, for the very highest standards in precision & cutting feel.

TONDEO

SOLINGEN
TONDEO

For the most discerning of hairdressers. For more than 80 years, TONDEO is one of the world's leading brands of scissors. A combination of precise hand-work, the use of state-of-the-art machines, technologies & years of know-how allow high quality, unique shears to be created. All made in Solingen, Germany.

TONDEO EXPERT COLLECTION BOXES

Everything you need in one box for precise cutting experiences & techniques. Each box contains a scissor, thinner, special care set with oil & cleaning cloth, & specialized carry bag for secure storage & travel. High quality scissors with an individually adjustable Easy-Quick screw system & setting key to alter the movement of the scissor. Maximum durability & lasting sharpness thanks to molybdenum steel.

SLIM BOX

- Slim, ergonomic, offset shape with forged finger hooks & polished finish. Narrow cutting edge for precise work. Suitable for all cutting techniques.
- Includes:
- Offset Scissor, 5.5 inch
 - Offset Thinner, 5.25 inch (33 prism teeth & slice edge)
- 17533**

SOLID BOX

- Pronounced shape & angled thumb eye design for relaxed work. Stable cutting edge with wide dagger blade. Ideal for slicing & cutting thick hair sections.
- Includes:
- Offset Scissor, 5.5 inch
 - Offset Thinner, 5.75 inch (38 prism teeth & slice edge)
- 17534**

LEFT BOX

- Pronounced shape & angled thumb eye design for relaxed work. Stable cutting edge with wide dagger blade. Ideal for slicing & cutting thick hair sections.
- Includes:
- Left Offset Scissor, 5.5 inch
 - Left Offset Thinner, 5.75 inch (38 prism teeth & slice edge)
- 17535**

LEFT

MAN BOX

- Classic, pointed shape, & polished finish. Angled thumb eye for an ergonomic shape. Ideal for fine contours & classic men's haircut techniques. Long length scissors for efficient cutting.
- Includes:
- Classic Scissor, 6.5 inch
 - Classic Thinner, 6.25 inch (46 prism teeth & slice edge)
- 17536**

TONDEO C-LINE

High quality scissors suitable for all cutting techniques.

CENTURY SLICE

- Polished facet & hollow grinding for smooth cutting. Unalloyed nickel, hardened stainless chrome steel. Classic Thinning. 36 teeth 5.75 inch
- 11314**

VEGAS

- Sturdy shear with slice cutting edge. Polished facet with polished hollow grinding for smooth cutting. Offset 5.0 inch
